# Sustainability meets Education in ONE Thailand's Container Library

On 22 Mar, our ONE Thailand office donated a solar-powered library made from a recycled shipping container to a school in Bangpakong, Chacheongsao Province, a rural area lacking in educational facilities.

In addition to the library donation, 18 ONE TH employees, along with 3 Ministry of Education representatives, enjoyed a number of joint activities with the school's 95 students and teachers – which included some games, sharing a meal, and a presentation of scholarships and gifts.

We believe that our contribution can make a positive difference, and hope the donated items will be well-utilized by the school to help develop their students' minds, bodies, and spirits.
