Ocean Network Express Pte. Ltd.

**ONE Jointly Conducted with Community Chest, Care Corner SCC and NTUC Active Aging Hub an Enthralling and Educational Tour**

**25 June 2019 – Singapore** – Ocean Network Express (ONE) collaborated with Community Chest (ComChest), Care Corner SCC (Student Care Corner) and NTUC Active Ageing Hub (NTUC AAH) for a joint corporate social responsibility (CSR) initiative. The half-day CSR event brought 21 students, aged 8 to 10 from Care Corner SCC, and 26 senior residents from NTUC AAH (Kampung Admiralty) together to bond over fun, educational and engaging activities. Organized by ONE Recreation Committee (ORC), the event took place at Kampung Admiralty located in the northern part of Singapore on Saturday, 22 June 2019.

The event kicked off with a tour around the retirement village in Kampung Admiralty for the students and 14 staff from ONE, with introduction to them on how senior residents are taken care of and the kind of facilities and activities made available to them. After the tour, the

---

students, senior residents and ONE volunteers were divided into groups of 3 to participate in 3 different activities on rotation basis. The seniors taught the students calligraphy, decoration using recycled glass bottles and popcorn making. The meaningful event ended with a lovely group lunch accompanied by a voluntary performing band.

Through these activities, ONE volunteers actively worked as a communication bridge between the children and senior residents, connecting them together to create opportunities for young children to learn to interact with the seniors and for the seniors to impart their skillset and knowledge to the younger generation. The activities were fun and enthralling which both the students and senior residents wholly enjoyed.

This is the third CSR collaboration between ONE, ComChest and Care Corner SCC to support and extend the spirit of caring and sharing to provide a safe, conducive and enjoyable learning environment for children aged 7 to 14.

### **About Community Chest (ComChest)**

ComChest is a community outreach program designed to connect the community through fundraising and volunteering, empowering social service users under our care to lead fulfilling lives.

### **About Care Corner SCC (Student Care Centre)**

Care Corner SCC is a nonprofit organization focused on building hope and promoting well-being of individuals and families in community through social and health care services.

### **About NTUC Active Ageing Hub (NTUC AAH)**

NTUC Active Ageing Hub is a centre set up to offer a wide range of services for seniors, including senior day care and day rehabilitation services, as well as community and volunteer activities, to promote active ageing, social integration, enhance self-care competencies and create opportunities where seniors can learn new skills to contribute back to the community through volunteering.
