Africa, India and Middle East Service (AIM) - “MV Mozart” attacked by Pirates

As you might have read in the news, “MV Mozart”, a vessel chartered by our partner line, Hapag Lloyd, in our AIM service sailing between Nigeria and South Africa, was seriously attacked by pirates this past Saturday. One seafarer suffered fatal injuries, 15 crew members have been kidnapped. In this time of sadness, our thoughts and prayers are with all crew members and their families.

According to the latest information updated by the vessel operator (Hapag Lloyd), since the pirates destroyed parts of the bridge, the vessel is currently unable to continue her voyage without significant delay.

We will continue to closely liaise with the vessel operator and keep you informed in good time about any further developments.
