

March 16, 2021

Dear Valued ONE Customer,**FP2: MV ONE APUS 006E/W**

Further to our Customer Advisory dated March 10, 2021, we would like to inform you that ONE APUS has successfully departed Kobe on March 16, 2021, 1300 hrs. Her estimated date to arrive Long Beach remains to be on or around March 30, 2021, without guarantee and subject to change. Though, regarding ONE APUS's berthing schedule in Long Beach, she is expected to wait for her berth, estimated to be on April 7, 2021, due to the ongoing congestion in San Pedro Bay area, without guarantee and subject to change.

As advised, while the general plan was to back-load as many original sound and transloaded containers on ONE APUS as reasonably possible, there are some containers originally carried on ONE APUS may need to be carried on different vessels due to safety and/or operational constraints, or where the required documentation could not be completed in time for ONE APUS. For such cases, affected customers has been informed and will be advised subsequently by our sales representatives regarding their alternative arrangement.

For containers sailing on ONE APUS, customers who have not completed import entry submission, pls kindly do so as per usual process.

Should you have any questions or concerns, please contact your sales account representative for additional information.

Sincerely,
Ocean Network Express Pte. Ltd.

For the avoidance of doubt, this Customer Advisory has been provided without prejudice and for informational purposes only, non-conclusive and subject to change.
