## Ocean Network Express launches its ONE Eco Calculator as a milestone towards net zero

**<10th April 2023 – Singapore>** Ocean Network Express (ONE) is pleased to announce the launch of the ONE Eco Calculator, which calculates carbon dioxide (CO<sub>2</sub>) emissions from ONE's operating vessels. The tool is one of the company's milestones in its journey to net zero.

With the ONE Eco Calculator, units are expressed as either Tank-to-Wake (TTW), a measure of emissions from burning fuel, which has been stored in a tank, or Well-to-Wake (WTW), a measure of emissions from fuel production, delivery, and use aboard ships.

"As we strive towards decarbonization, ONE is on a continuous journey to encourage stakeholders to participate," said Koshiro Wake, Senior Vice President of Corporate Strategy & Sustainability Department, Ocean Network Express (ONE). "Thus, the ONE Eco Calculator was developed not only for ourselves, but also for like-minded players and customers seeking sustainable transport solutions and seeking to manage their own cargo emissions." Koshiro Wake added that the commitment to achieving net zero is at the top of ONE's management agenda, along with the company's Green Strategy which was unveiled in March 2022.

The ONE Eco Calculator provides total distance and total CO2 emissions from Place of Receipt to Place of Delivery, including door locations. By offering this service, customers can choose a more environmentally friendly service

Users can access the ONE Eco Calculator via our eCommerce Platform [here](#) and Mobile App [here](#).

An FAQ on the ONE Eco Calculator is available [here](#)

#### **About Ocean Network Express (ONE)**

Ocean Network Express (ONE) was established on July 7, 2017 following the liner service integrations of Kawasaki Kisen Kaisha ("K" LINE), Mitsui O.S.K. Lines (MOL) and Nippon Yusen Kaisha (NYK). The new entity is headquartered in Singapore, supported by regional offices in Hong Kong, Singapore, the United Kingdom, the United States and Brazil. ONE is the world's seventh largest container carrier with a fleet size of approximately 1.51 million TEU. With 205 vessels and a service network covering over 120 countries around the world, it offers a reliable and expeditious international network. ONE is a member of THE Alliance (THEA), a global ocean carrier consortium.
