# ONE celebrates World Environment Day!

In June, ONE celebrated World Environment Day through a series of activities across offices globally.

True to the theme of “Our Land, Our Future. We are #GenerationRestoration”, Magentians cared for the environment by getting up close with the land through planting trees, clearing invasive species and learning more about the value of earth and ecosystems around us.

Explore some featured events below!

**Pictured: ONE Philippines** at the One Million Trees La Mesa Nursery conservation and rehabilitation area for a tree planting activity.

**Pictured: ONE New Zealand** clearing invasive species along the Whau River.
