Notes to Editors:

ONE (Ocean Network Express Pte. Ltd.) is a major global container shipping company offering an extensive liner network service portfolio covering over 100 countries internationally. ONE emerged from the legacy of three Japanese liner companies, with the new company's global headquarters in Singapore, to further enhance its intended strong international trading presence. With a global fleet of over 250 vessels, active participation in all major global trade lanes, deployment of the latest IT systems and an extensive terminal ownership portfolio. ONE positions itself as being "large enough to survive, but still small enough to care".
